DETAILED ACTION

Response to Amendment

1. This Office Action is in response to Amendment filed on date: 3/6/07. Claims 1-23 are still pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 21 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Tatehana et al. (U.S. 6,879,337).

With respect to claim 21, Tatehana et al. disclose a camera lens module for a portable wireless terminal with a main body and folder that are all rotatable about a same hinge axis in figure 3. Tatehana et al. disclose a housing, element number 63, containing a camera lens which is provided with a partition in a predetermined internal position, a through hole formed in the partition, and an opening portion for exposure of the camera lens (Column 6, lines 39-46). Tatehana et al. also disclose a protective transparent lens window, element number 64, and a front cover (Column 5, lines 14-23). Tatehana et al. further disclose a rear cover, element number 62, comprising a first flange and a male hinge member (Column 5, lines 24-37).

With respect to claim 23, Tatehana et al. show the front cover having ribs to from the lens containing recess in figure 3.

Allowable Subject Matter

4. Claims 1-20 are allowed.

Claim 22 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
